

## ROAD DRIVERS DEFIAINT.

THE STATE ASSOCIATION REPLACES TO RECOGNIZE AMATEUR LEAGUE.

ONLY FIVE CLUBS REPRESENTED AT THE FORMATION OF THE LATTER ORGANIZATION. NEW YORK STATE ROAD DRIVERS WANT A LEAGUE MORE NATIONAL IN CHARACTER.

The Road Drivers Association of the State of New York, through the Executive Committee, is in full sympathy with the Amateur Drivers League, which was quite organized by representatives of five clubs, stated to be purely amateur, of the Boston club, during the Madison Square garden house sale. At the time of the meeting it was announced by one or more delegates that President Kane of the Cleveland Park club, which I have done best for the general good of amateur drivers, has been in Boston and promote the sport, to make it as legal as possible and to endeavor to make broad lines and it would take in every interest of the road drivers, which would necessarily include the definition of the amateur, the condition of the roads, the condition of roads and road beds, the fostering of all kinds, the betterment in the driving of all kinds, the betterment in the breeding of the rest gentler men road drivers, and to better right for amateur drivers and better protection of their interests.

We are finding no fault with the amateur drivers, but we do not believe they provide them so fully their definitions of amateur and their rules to their own satisfaction, and in so far as the favor of centralization and the exclusion of genuine amateurs through the formation of a national amateur in every state, through amateur in every part of the United States. The select criteria met late on Saturday night, and it was published that in all the New York papers on Sunday that Doctor Kane is also President, who is sent. The fact is President Kline of Boston invited to confer with the other clubs who were present at the big sale. A few men sat together and assumed the right to dictate to the rest of the clubs in the United States. The select criteria met late on Saturday night, and it was published that in all the New York papers on Sunday that Doctor Kane is also President, who is sent. The French element here is growing less with every year and losing ground rapidly.

French has lost the official and legal status in New Orleans in the last two decades. Originally used altogether in the City Council, Legislature and courts, it afterward had to divide the honor and New Orleans and all southern Louisiana became bilingual. The remaining could bring suit in English in French cases, and the French language was used in either law and counsels and members of the Legislature could introduce bills and resolutions or speak in their mother tongue, whether it were that of France or England. This condition of affairs has long since passed away, and French has ceased to be the official tongue in any case except some auction advertisements for the sale of slaves.

"Well, could not the Cleveland club with its long experience be of great benefit to amateur horsemen by showing them how to elevate the sport?"

"They can copy all that without an amateur league, and I have it, however, and the road drivers brought fight on my hands."

The New York road riders have taken the matter up and the amateur is likely to get a severe jolt before the controversy is settled. At a meeting of the Executive Committee, at which were present Messrs. Gwynneth, Keeler, Putney, Cokerhill, Lloyd, Hollis, Reeves, Blaurock, Newburger, Gill, Colleman and Kane, the following resolution was passed:

That the President be and is empowered to lodge a protest with the Board of Directors of the National Amateur Association against the rights reserved by the National League of Amateur Drivers throughout the United States, said league meeting notwithstanding, to demand recognition of the Road Drivers Association of New York and thirty-one other bona fide amateur organizations in the various parts of the country, that the new league should not represent amateur drivers, amateurs, or amateurs, and to start work to define the true status of an amateur or to make rules to govern amateur racing except in so far as concerns their own clubs and that such definition and racing are not concerned in or induced by this association.

Acting on the instruction of the committee, President Kane wrote to the Honorable George of the N. Y. A. M. and expressed his desire that nothing be done that the master must be submitted to the Tenth Congress, which holds its next meeting in Indianapolis, and that prior to that meeting there will be a joint conference of the members of the American and National Driving associations at which time any protest of this nature will be submitted for consideration and may be represented by committee if referred.

The whole matter is fully set forth in the following extract from the driving organization in the country.

DR. SIR:—Although I do not wish to continue the subject with the master of the Amateur League, yet the subject is one of such great importance, as I think you will admit, that I would like to have your views in regard to the formation of such a league.

"You are aware that I turned the names of the others to you, and that you are giving me the name of the Tattersalls A. C. and there must be a winner. The articles of agreement stipulate that Gans must knock Metcalf out in six rounds. Gans will be permitted to weigh 165 pounds at 7 o'clock night, while Metcalf will probably scale in at 168 pounds.

"The idea of the National Sporting Club agreeing to give me \$1,000 for a battle with McKeever is the funniest thing I've heard in a long while. Why, I can make that amount of money any night by fighting in Chicago for six rounds, and have a 'mark' before me at that. In regard to the side he has taken, I am sure he is right. The French opera is more popular than the West.
